Gothe, R., *see* Kraiss-Gothe, A. et al.
Gough, J.M., *see* Kemp, D.H. et al.
Gross, S.J., *see* Soll, M.D. et al.
Hamed, M.S. and Knowles, C.O.
Penetration of pesticides into the bulb mite *Rhizoglyphus echinopus* (Acari: Acaridae) .. 201
Hensen, E.J., *see* Jongejan, F. et al.
Horn, D.J., *see* Pearl, D.K. et al.
Ibay, L.A., *see* Burgett, D.M. et al.
Jackson, H.C. and Chesterman, M.P.
In-vivo effects of ivermectin on *Rhipicephalus appendiculatus*: the influence of tick feeding patterns and drug pharmacokinetics 109
Jaworski, D.C., *see* Needham, G.R. et al.
Jongejan, F., Pegram, R.G., Zivkovic, D., Hensen, E.J., Mwase, E.T., Thielemans, M.J.C., Cossé, A., Niewold, T.A., El Said, A. and Uilenberg, G.
Monitoring of naturally acquired and artificially induced immunity to *Amblyomma variegatum* and *Rhipicephalus appendiculatus* ticks under field and laboratory conditions 181
Kalvelage, H., *see* Kraiss-Gothe, A. et al.
Kemp, D.H., Pearson, R.D., Gough, J.M. and Willadsen, P.
Vaccination against *Boophilus microplus*: localization of antigens on tick gut cells and their interaction with the host immune system 43
Knowles, C.O., *see* Hamed, M.S. and Knowles, C.O.
Kraiss-Gothe, A., Kalvelage, H. and Gothe, R.
Investigation into the critical equilibrium humidity, active atmospheric water absorption and water content of *Rhipicephalus evertsi mimeticus* 131
Krantz, G.W., *see* Royce, L.A. and Krantz, G.W.
Kurtti, T.J., *see* Munderloh, U.G. and Kurtti, T.J.
Lorenzen, K., *see* Gary, N.E. et al.
McSwain, J.L., *see* Sauer, J.R. et al.
Muller, M.T., *see* Needham, G.R. et al.
Munderloh, U.G. and Kurtti, T.J.
Formulation of medium for tick cell culture 219
Mwase, E.T., *see* Jongejan, F. et al.
Needham, G.R., Jaworski, D.C., Simmen, F.A., Sherif, N. and Muller, M.T.
Characterization of ixodid tick salivary-gland gene products, using recombinant DNA technology 21
Nelis, H.J.C.F., *see* Overmeer, W.P.J. et al.
Niewold, T.A., *see* Jongejan, F. et al.
Norval, A., *see* Fivaz, B.H. and Norval, A.
Norval, R.A.I., Butler, J.F. and Yunker, C.E.
Use of carbon dioxide and natural or synthetic aggregation-attachment pheromone of the bont tick, *Amblyomma hebraeum*, to attract and trap unfed adults in the field 171
Overmeer, W.P.J., Nelis, H.J.C.F., De Leenheer, A.P., Calis, J.N.M. and Veerman, A.
Effect of diet on the photoperiod induction of diapause in three species of predatory mite, *Amblyseius potentillae, A. cucumeris* and *Typhlodromus pyri* 281
Page, R.E., Jr., *see* Gary, N.E. et al.
Pearl, D.K., Bartoszynski, R. and Horn, D.J.
A stochastic model for simulation of interactions between phytophagous spider mites and their phytoseiid predators 143

Pearson, R.D., *see* Kemp, D.H. et al.
Pegram, R.G., *see* Jongejan, F. et al.
Piesman, J.
Transmission of Lyme disease spirochetes (*Borrelia burgdorferi*) 71
Proctor, H.C.
The occurrence of protandry and a female-biased sex ratio in a sponge-associated water mite (Acari: Unionicolidae) 289
Řehácek, J., *see* Šuťáková, G. and Řeháček, J.
Ribeiro, J.M.C.
Role of saliva in tick/host interactions 15
Rosell-Davis, R. and Coons, L.B.
Relationship between feeding, mating, vitellogenin production and vitellogenesis in the tick *Dermacentor variabilis* 95
Royce, L.A. and Krantz, G.W.
Observations on pollen processing by *Pneumolaelaps longanalis* (Acari: Laelapidae), a mite associate of bumblebees 161
Royce, L.A., *see also* Burgett, D.M. et al.
Sauer, J.R., McSwain, J.L., Tucker, J.S., Shelby, K.S., Williams, J.P. and Essenberg, R.C.
Protein phosphorylation and control of tick salivary gland function 81
Shapiro, S.Z., Voigt, W.P. and Ellis, J.A.
Acquired resistance to ixodid ticks induced by tick cement antigen 33
Shelby, K.S., *see* Sauer, J.R. et al.
Sherif, N., *see* Needham, G.R. et al.
Simmen, F.A., *see* Needham, G.R. et al.
Soll, M.D., Carmichael, I.H., Swan, G.E. and Gross, S.J.
Control of induced infestations of three African multihost tick species with sustained-release ivermectin 121
Stone, B.F., Binnington, K.C., Gauci, M. and Aylward, J.H.
Tick/host interactions for *Ixodes holocyclus*: role, effects, biosynthesis and nature of its toxic and allergenic oral secretions 59
Šuťáková, G. and Řeháček, J.
Experimental infection with *Rickettsiella phytoseiuli* in adult female *Dermacentor reticulatus* (Ixodidae): an electron microscopy study 299
Swan, G.E., *see* Soll, M.D. et al.

Subject Index

Acarapis spp.
Effect of age of *Apis* on *Acarapis* infestation 153
Concurrence of the *Acarapis* species complex in a honey-bee apiary 251
Acarology, general
Acarology: Mites and Human Welfare (Book review) 167
Age, influence of, *see* Resistance, host
Amblyomma spp.
Use of carbon dioxide and aggregation-attachment pheromone of *Amblyomma* to attract and trap adults 171
Monitoring of immunity to *Amblyomma* and *Rhipicephalus* 181
Ultrastructure of the synganglion in larval *Amblyomma* 239
Comparison of sampling methods for lone-star ticks 313
Amblyseius spp.
Effect of diet on induction of diapause in *Amblyseius* and *Typhlodromus* 281
Analytical methods, *see* Laboratory techniques
Anocentor spp.
Formulation of medium for tick cell culture 219
Apis spp., mites of
Effect of age on *Apis* on *Acarapis* infestation 153
Pollen processing by *Pneumolaelaps* 161
Concurrence of the *Acarapis* species complex in a honey-bee apiary 251
Argas spp.
Ultrastructure of the lateral organs in larval *Argas* 231
Boophilus spp.
Vaccination against *Boophilus*: localization of antigens and their interaction with the immune system 43
Formulation of medium for tick cell culture 219
Effects of biogenic amines and adrenergic drugs on oviposition 259
Borrelia spp.
Transmission of Lyme disease spirochetes 71
Culture, *see* Laboratory techniques
Dermacentor spp.
Role of saliva in tick/host interactions 15
Feeding, mating, vitellogenin production and vitellogenesis 95
Rickettsiella infection 299
Dermatophagoides spp.
A new and rapid method of preparation of house-dust mites 323
Diapause, *see* Structure and function
Diet, influence of
Effect of diet on induction of diapause in *Amblyseius* and *Typhlodromus* 281
Election microscopy, *see* Laboratory techniques
House-dust mite, *see Dermatophagoides* spp.
Humidity, influence of
Critical equilibrium humidity, atmospheric water absorption and water content of *Rhipicephalus* 131
Hyalomma spp.
Control of three multihost tick species with ivermectin 121
Fine structure of muscles 327

Immunology, *see* Resistance, host
Ixodids
Characterization of salivary-gland gene products 21
Resistance to ixodid ticks 33
Ixodes: role, effects, biosynthesis and nature of toxic and allergenic oral secretions 59
Transmission of *Borrelia* spirochetes 71
Comparison of sampling methods 313
Laboratory techniques
Characterization of ixodid salivary-gland gene products by recombinant DNA technology 21
Pollen processing by *Pneumolaelaps* 161
Formulation of medium for tick cell culture 219
Rickettsiella infection in *Dermacentor* 299
A new and rapid method of preparation of house-dust mites 323
Lyme disease, *see Borrelia*
Modelling
Simulation of interactions between spider mites and their predators 143
Ornithodoros spp.
Fine structure of the fat body in females 245
Pest management: A. Control of acarine pests
Ixodes: role, effects, biosynthesis and nature of toxic and allergenic oral secretions 59
Effects of ivermectin on *Rhipicephalus*: Influence of feeding patterns and drug pharmacokinetics 109
Control of three multihost tick species with ivermectin 121
Use of carbon dioxide and aggregation-attachment pheromone of *Amblyomma* to attract and trap adults 171
Monitoring of immunity to *Amblyomma* and *Rhipicephalus* 181
Penetration of pesticides into *Rhizoglyphus* 201
Effects of biogenic amines and adrenergic drugs on oviposition in *Boophilus* 259
Rickettsiella infection in *Dermacentor* 299
Pest management: B. Acarines as pest-control agents
Simulation of interactions between spider mites and their predators 143
Pesticides, *see* Pest Management: A. Control of acarine pests
Phytoseiulus spp.
Simulation of interactions between spider mites and their predators 143
Pneumolaelaps spp.
Pollen processing 161
Protandry, *see* Sex-ratio
Protein phosphorylation
and control of tick salivary gland function 81
Resistance, host
Immunology of interactions between ticks and laboratory animals 5
Role of saliva in tick/host interactions 15
Resistance to ixodid ticks 33
Vaccination against *Boophilus*: localization of antigens and their interaction with the immune system 43
Effect of age of *Apis* on *Acarapis* infestation 153
Monitoring of immunity to *Amblyomma* and *Rhipicephalus* 181
Observations on infestations of rabbit by *Rhipicephalus* 267
Rhipicephalus spp.
Resistance to ixodid ticks 33

Control of three multihost tick species with ivermectin 121
Critical equilibrium humidity, atmospheric water absorption and water content 131
Monitoring of immunity to *Amblyomma* and *Rhipicephalus* 181
Formulation of medium for tick cell culture 219
Observations on infestations of rabbit 267
Rhizoglyphus spp.
Penetration of pesticides 201
Rickettsiella
Infection in *Dermacentor* 299
Salivary glands, *see* Structure and function
Sampling methods
Comparison of methods for sampling *Ixodes* and *Amblyomma* 313
Sex-ratio
Protandry and female-biased sex-ratio in a water mite 289
Structure and function
Role of saliva in tick/host interactions 15
Characterization of ixodid salivary-gland gene products 21
Resistance to ixodid ticks 33
Protein phosphorylation and control of tick salivary-gland function 81
Feeding, mating, vitellogenin production and vitellogenesis in *Dermacentor* 95
Ultrastructure of the lateral organs in larval *Argas* 231
Ultrastructure of the synganglion in larval *Amblyomma* 239
Fine structure of the fat body in female *Ornithodoros* 245
Effects of biogenic amines and adrenergic drugs on oviposition in *Boophilus* 259
Effect of diet on induction of diapause in *Amblyseius* and *Typhlodromus* 281
Fine structure of muscles in *Hyalomma* 327
Tetranychus spp.
Simulation of interactions between spider mites and their predators 143
Tick/host interaction
Immunology of interactions between ticks and laboratory animals 5
Role of saliva in tick/host interactions 15
Characterization of ixodid salivary-gland gene products 21
Resistance to ixodid ticks 33
Vaccination against *Boophilus*: localization of antigens and their interaction with the immune system 43
Ixodes: role, effects, biosynthesis and nature of toxic and allergenic oral secretions 59
Protein phosphorylation and control of tick salivary gland function 81
Feeding, mating, vitellogenin production and vitellogenesis in *Dermacentor* 95
Observations on infestations of rabbit by *Rhipicephalus* 267
Typhlodromus spp.
Effect of diet on induction of diapause 281
Unionicola spp.
Protandry and female-biased sex-ratio in a water mite 289
Vaccination, *see* Resistance, host
Vitellogenesis, *see* Structure and function
Water balance, *see* Humidity, influence of
